**Overall Learning Objectives:**

- 1) Discuss the latest scientific and clinical discoveries in endocrinology, diabetes and metabolism.
- 2) Apply newfound knowledge to diagnosing and managing patients with disorders of endocrinology, diabetes or metabolism for improved patient outcomes
- 3) Assess the potential applications of emerging scientific advances that affect the practice of endocrinology.
- 4) Explain to your patients the latest clinical treatment options in endocrine health.
- 5) Describe the multidisciplinary approach to treatment and management of pediatric endocrine disorders.
